

Honors College Research Team Grant

The Honors College Team Research Grant supports faculty members who supervise research teams of two to four students (in one or across multiple disciplines) to oversee the completion of a multi-objective thesis/research project. A faculty member must mentor at least two students to qualify for this grant, but no more than four. A project can consist of no more than four funded students.

Submitting the Grant Proposal

Unlike a SURF or Honors College Research grant, the faculty member writes this grant.

- All involved students must be identified in the proposal.
- Students funded must be 1) be current honors students, 2) have completed six hours of honors coursework on campus at the time of proposal submission, and 3) must have a cumulative GPA of 3.5 or greater at the time of proposals submission and during the award period.

Number of Faculty Mentors and Students

Research Team Grants can be proposed by a single faculty mentor or a team of two faculty mentors.

- Option One: One Faculty Mentor
 - One faculty mentor may mentor 2, 3, or 4 students.
- Option Two: Two Faculty Mentors
 - Two faculty members may partner for this grant.
 - Each faculty member must mentor 2 students, meaning 4 students total will work on the project funded by the grant.

Award Amount for Faculty and Student Stipends

Each student receives a stipend of \$750 for a one-semester project and \$1,500 for a two-semester project.

- For example, if the grant is submitted for a project in the Fall 2018 semester, each student will receive a total of \$750.
- If the grant is submitted for a project spanning Fall 2018 and Spring 2019 semesters, each student will receive \$750 in the Fall and \$750 in the Spring, for a total award of \$1,500.

The faculty mentor will receive \$750 in mentor funds for each student.

- A faculty mentoring two students will receive a total of \$1,500.
- A faculty mentoring three students will receive a total of \$2,250.
- A faculty mentoring four students will receive a total of \$3,000.
- The faculty stipend is the same regardless of whether the project spans one semester or two semesters.
